Description: More than 1 user can access with the same account at the same time

Severity: High

Priority: Low

Steps:

1. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>
2. Open a different browser or incognito/private window
3. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>

Expected: Application should prevent the same account being used at the same time

Actual: More than 1 user can access with the same account at the same time

Description: Fields are not marked as required

Severity: Medium

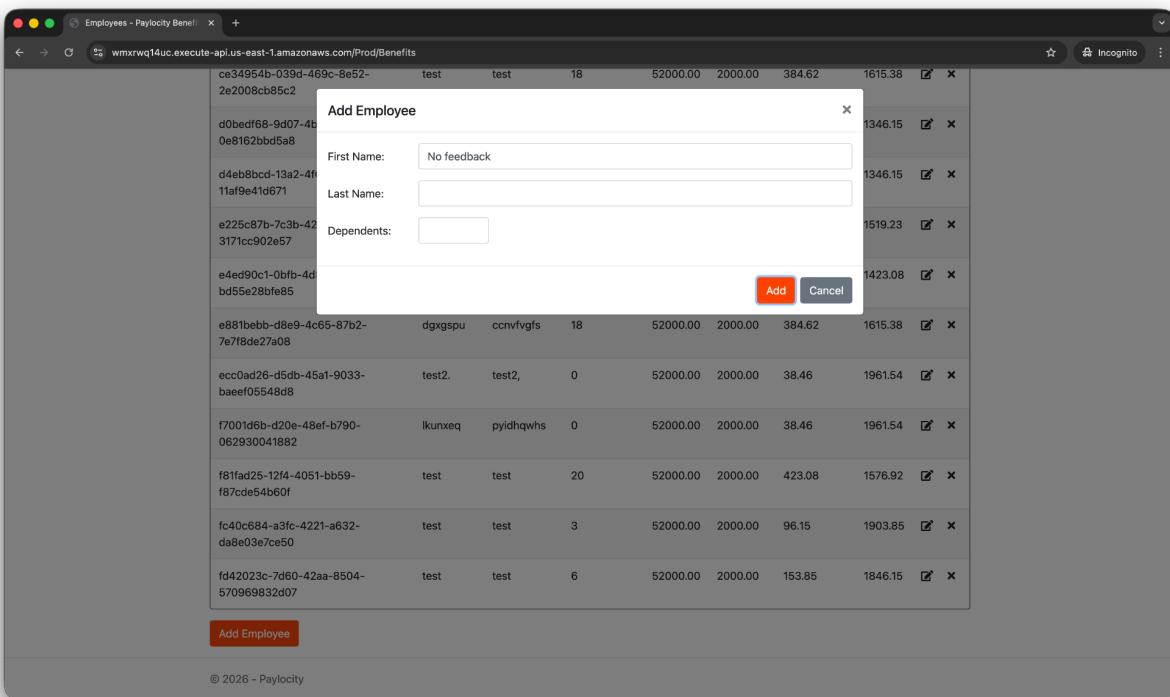

Priority: Low

Steps:

1. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>
2. Click on “Add Employee” button
3. Type any value in FirstName field
4. Click on “Add” button

Expected: Application should provide feedback to the user to let the user know what fields are required

Actual: Nothing happens when required fields are not filled

The screenshot shows a web browser window titled "Employees - Paylocity Benefits". The URL is "wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Benefits". The main content area displays a table of employee records with columns: ID, First Name, Last Name, Dependents, and various benefit values. Overlaid on this is an "Add Employee" modal window. The modal has fields for "First Name" (containing "No feedback"), "Last Name" (empty), and "Dependents" (empty). At the bottom of the modal are "Add" and "Cancel" buttons. The entire application interface has a light gray background.

Description: Records cannot be sorted

Severity: Low

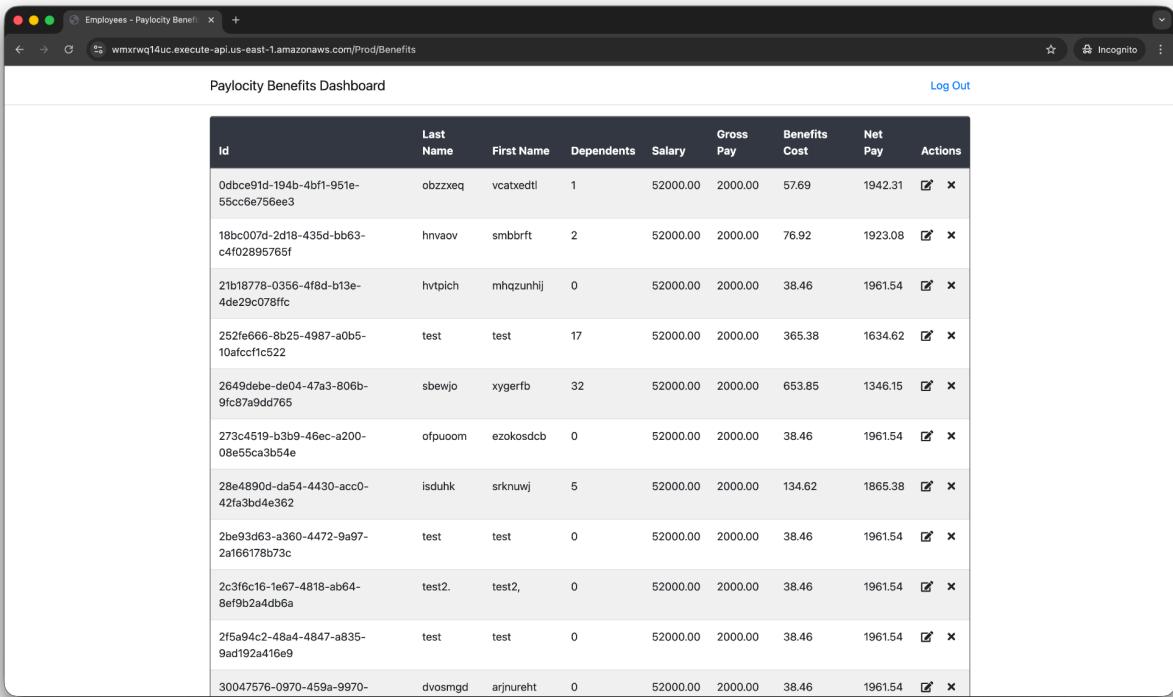

Priority: Low

Steps:

1. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>
2. Click on table headers

Expected: Records should be sorted by column headers

Actual: User cannot sort the records

Description: There is not pagination for the records

Severity: Low

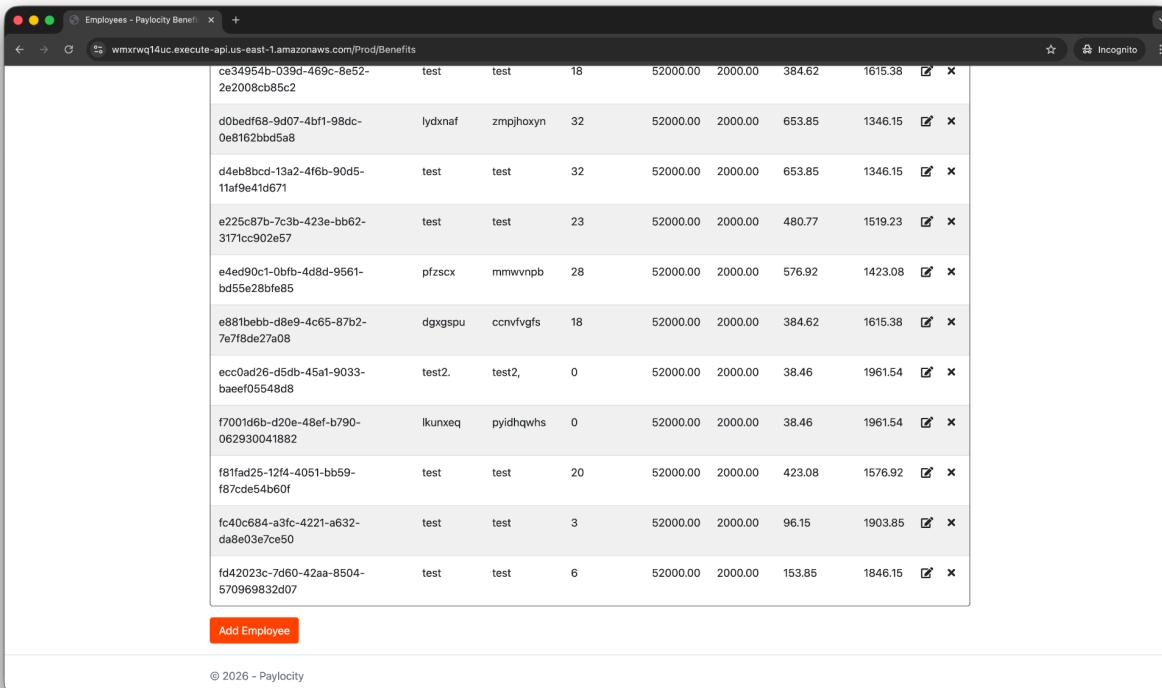

Priority: Low

Steps:

1. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>
2. Add more than 50 records

Expected: Pagination should be available to avoid performance issues with long list of records

Actual: There is not pagination when many records are created

The screenshot shows a web browser window titled "Employees - Paylocity Benefits". The URL in the address bar is "wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Benefits". The page displays a table with 15 rows of data. Each row contains the following columns: Employee ID (e.g., ce34954b-039d-469c-8e52-2e2008cb85c2), Name (e.g., test), Surname (e.g., test), Age (e.g., 18), Annual Income (e.g., 52000.00), Monthly Income (e.g., 2000.00), Monthly Expenses (e.g., 384.62), and Monthly Benefit (e.g., 1615.38). Each row also includes edit and delete icons. At the bottom of the table, there is a red "Add Employee" button and a copyright notice: "© 2026 - Paylocity".

Description: Dependents field accept letters

Severity: Medium

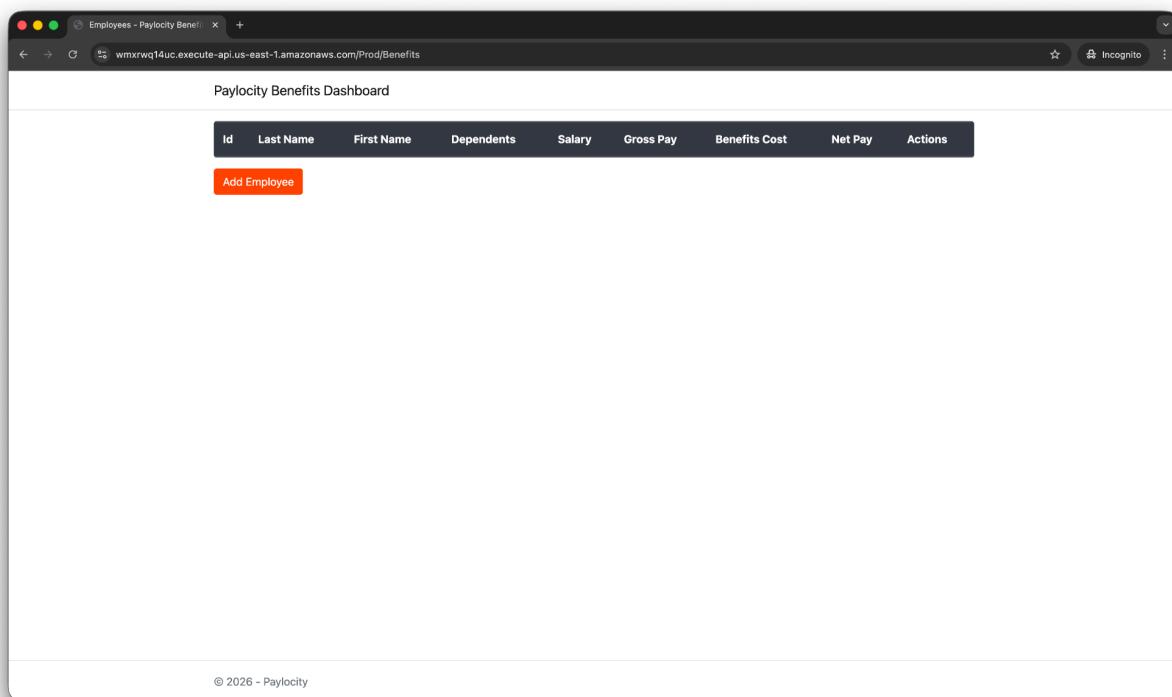

Priority: Medium

Steps:

1. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>
2. Let the page open for 10 minutes with any action
3. Try to add, delete or update a record

Expected: User should be redirected to login page after the session expired

Actual: There is not feedback for the user that the session expired

Description: There is not authentication/security for this /benefits/ page

Severity: High

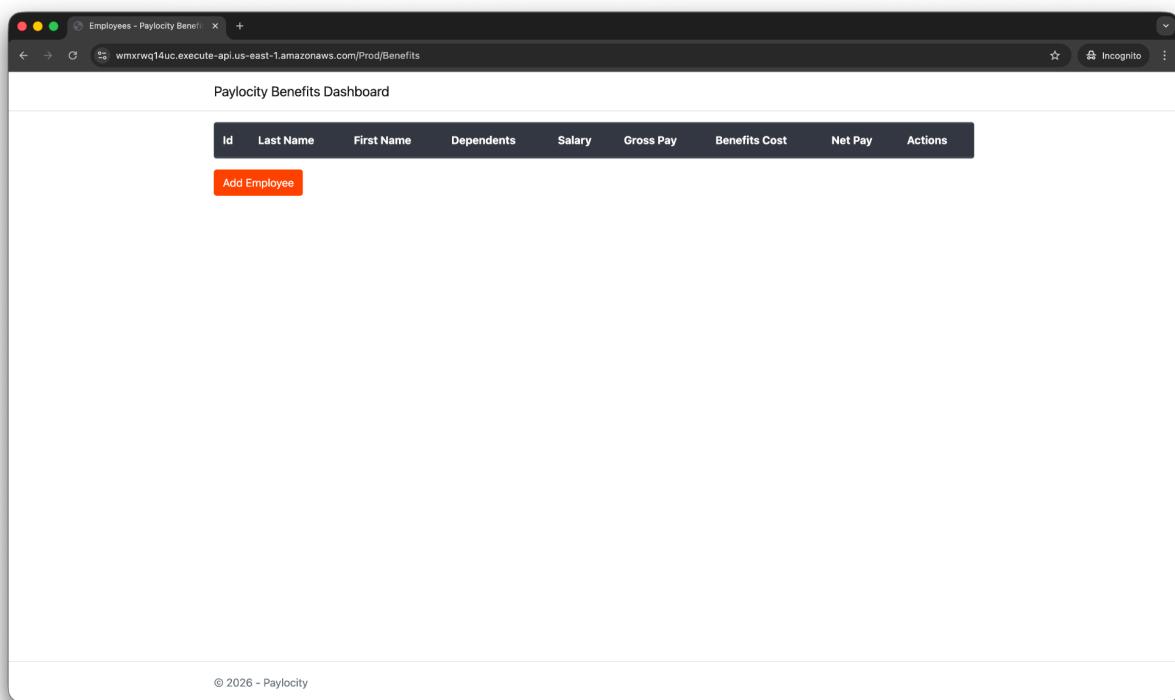

Priority: Low

Steps:

1. Open a new incognito/private window with no paylocity authentication
2. Go to <https://wmxrwg14uc.execute-api.us-east-1.amazonaws.com/Prod/Benefits>

Expected: Page should not be displayed or user should be redirected to login page

Actual: Page is displayed

Description: User can type any value in dependents field

Severity: Medium

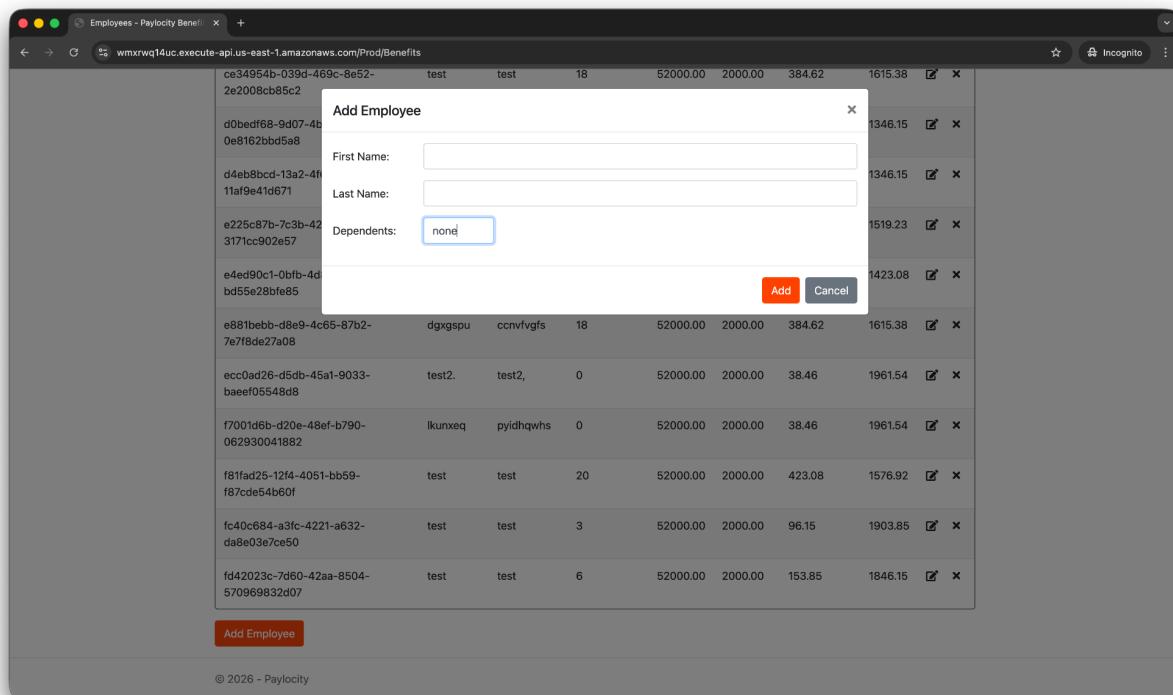

Priority: Medium

Steps:

1. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>
2. Click on “Add Employee” button
3. Type any valid value in FirstName and LastName,
4. Type non-number value in Dependents field
5. Click on “Add” button

Expected: letters and symbols should not be allowed in dependents field

Actual: letters and symbols are allowed in dependents field

Description: Fields have no character length limitation

Severity: Medium

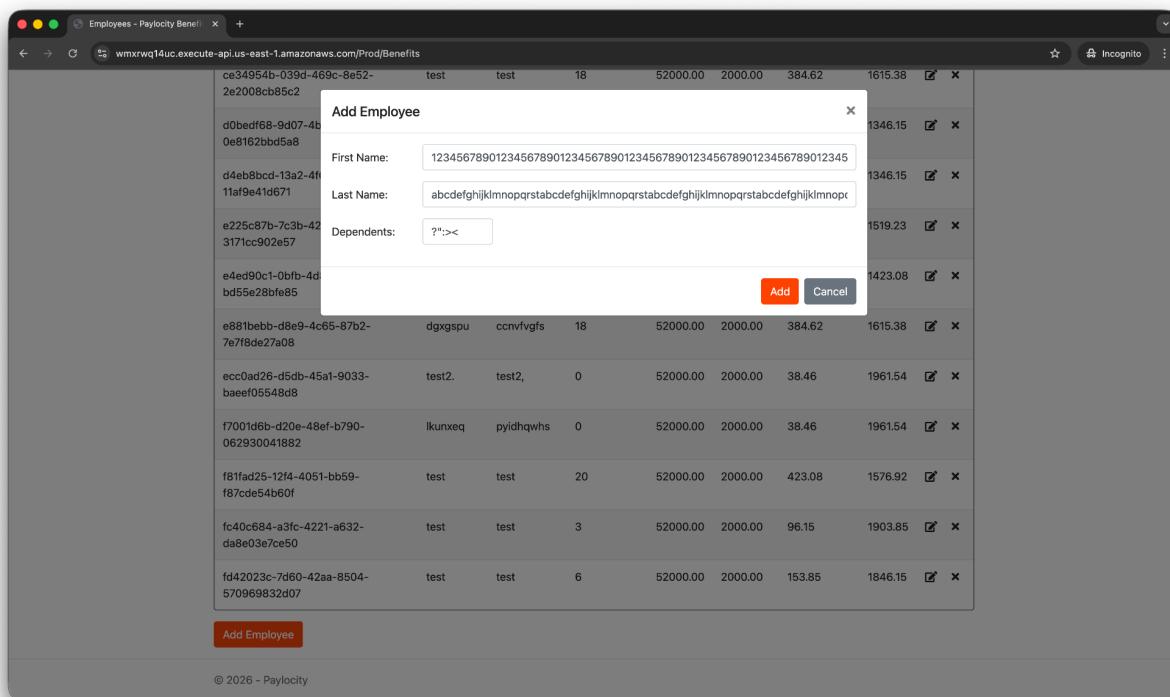

Priority: Medium

Steps:

1. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>
 2. Click on “Add Employee” button
 3. Type any value in FirstName, LastName and Dependents fields more than 50 characters for each
 4. Click on “Add” button

Expected: Fields should be limited to be consistent with the api limit

Actual: Fields are not limited

Description: 401 error is displayed when the user tries to update a record

Severity: Medium

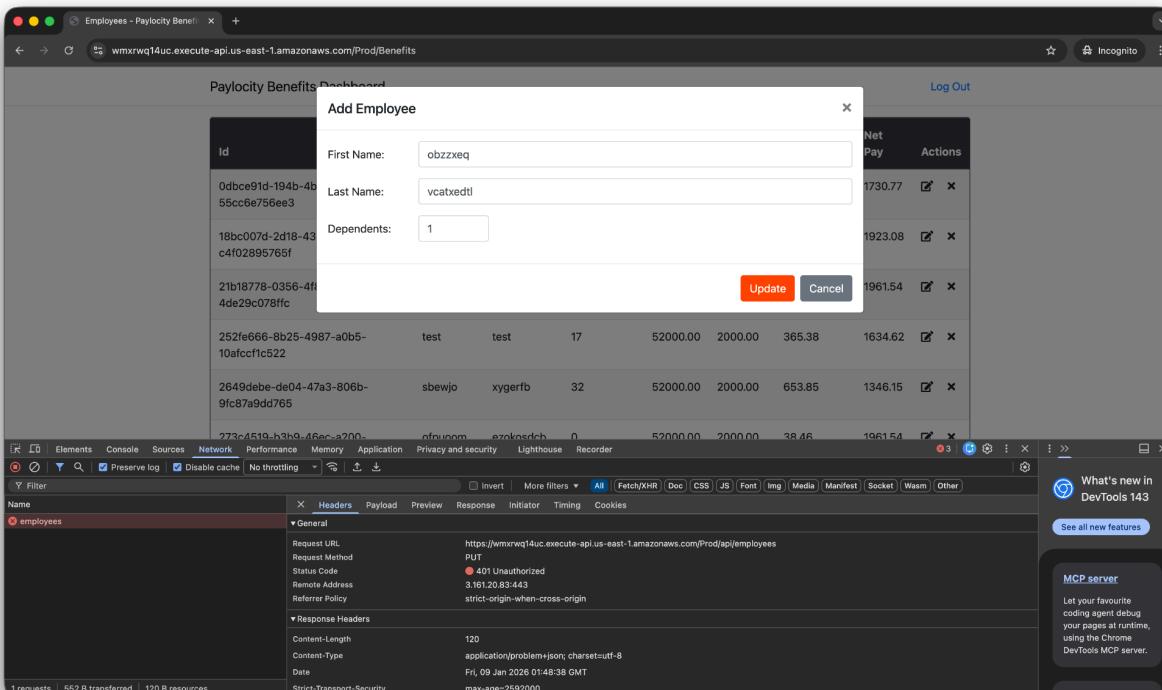

Priority: Low

Steps:

1. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>
2. Let the session open for some minutes
3. Click on “Edit/Update” icon
4. Update any value
5. Click on “Update” button

Expected: User should be able to update OR be redirected to login page as the session expired

Actual: User's session expired but the user is trying to update a record

The screenshot shows a browser window with the title "Employees - Paylocity Benefits". The main content area displays a table of employee benefits data. A modal dialog titled "Add Employee" is open, showing fields for First Name (obzzxeq), Last Name (vcatxedtl), and Dependents (1). Below the modal is a table with several rows of employee data. At the bottom of the screen, the Chrome DevTools Network tab is visible, showing a request to "https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/api/employees" with a status code of 401 Unauthorized. The response payload indicates the error message: "401 Unauthorized". The DevTools sidebar on the right shows the "What's new in DevTools 143" section and an "MCP server" section.

Description: 401 error is displayed after refresh the page

Severity: Low

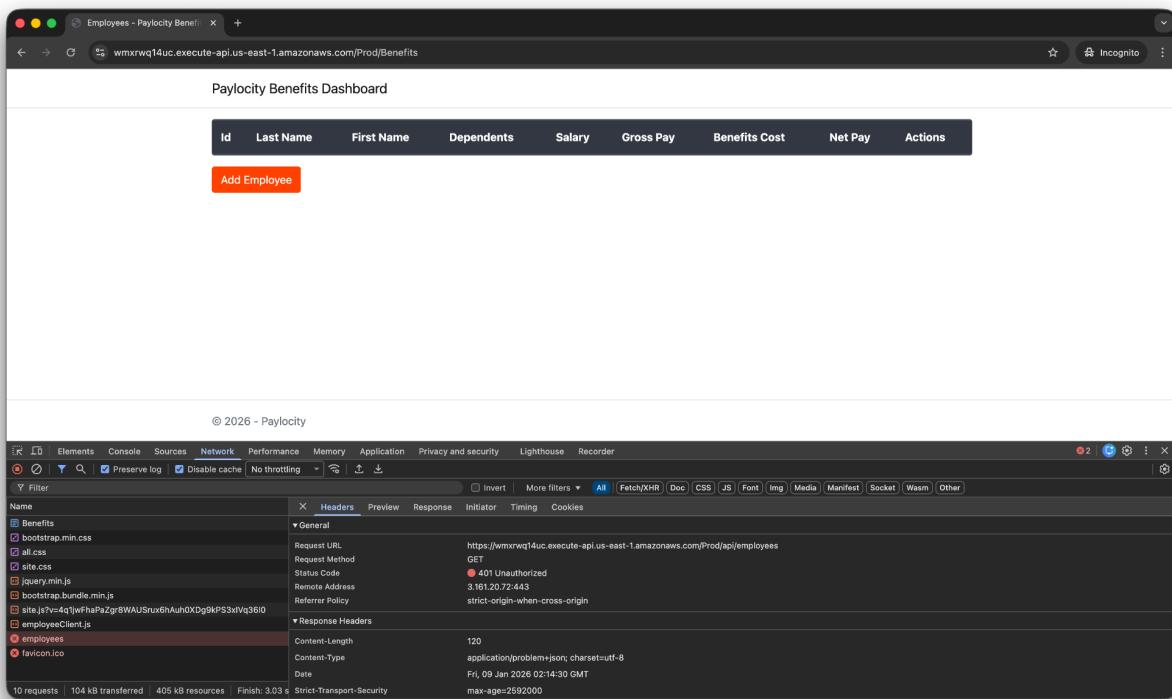

Priority: Low

Steps:

1. Login Paylocity Dashboard -
<https://wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Account/Login>
2. Let the session open for some minutes
3. Refresh the page

Expected: User should be redirected to login page as the session expired

Actual: User's session expired but the user remains in the same screen and the information is not longer displayed

The screenshot shows a browser window with the title "Employees - Paylocity Benefits". The address bar contains the URL "wmxrwq14uc.execute-api.us-east-1.amazonaws.com/Prod/Benefits". The main content area displays the "Paylocity Benefits Dashboard" with a table header and an "Add Employee" button. Below the table is a copyright notice: "© 2026 - Paylocity". The bottom portion of the screenshot shows the Chrome DevTools Network tab. A request for "/api/employees" is listed, showing a status code of 401 Unauthorized. The response headers include "Content-Type: application/problem+json; charset=utf-8" and "Date: Fri, 09 Jan 2026 02:14:30 GMT". The "Headers" section of the Network tab is expanded, showing the request and response headers.
